Experienced/Worked as a Tax Administrator for almost two years, while also contributing as a .NET Developer with full-stack developer expertise using HTML, CSS, JavaScript, C#, Node.js, and also as a C# developer. I am currently attending Full-Stack Web Developer Bootcamp to sharpen my technical expertise—a very passionate and positive person. Expertise in building desktop applications either creates smooth user experiences through well-created, responsive, and efficiently managed code usage or makes an application a “problem solver”. A logic-oriented and adaptable professional with strong problem-solving skills, actively seeking a full-time .NET Developer position to leverage expertise in technology to create innovative solutions.
